Subject: Re: State Resources Activated at this time

We're starting a Joint CST and TCEQ Contractor entry to place area Rae's around the incident site. Site characterization is to begin at first light.

Talking to Union Pacific hazmat team. They had just pushed a 200,000 pound rail car of ammonium nitrate. Tank car is gone along with at least 600 feet of the main rail line. High school leveled along with apartment complex that was across the tracks.
